Visitation*

Seeing your family and friends is important to your recovery.

When are Visitors Allowed?

Between the hours of 9 a.m. and 8 p.m.

Who Can Visit?

Patients can have two healthy (i.e. no fever or other signs of illness) visitors (aged 12 or over) at a time. Patients may have up to two family caregivers present for family meetings and goals of care/end of life discussions.

Patients with COVID-19 may have one healthy visitor (aged 12 and over) at a time. Approved visitors will receive information about risk of infection and will be asked to put on Personal Protective Equipment (PPE) (gown, gloves, medical mask, and eye protection/face shield). Unit staff will show the visitor how to put on/remove PPE to ensure your safety and reduce the risk of viral spread to others.

*COVID may impact our visitation hours and policy. Please visit PennRehab.org for current information.
